and grew in capacity in 2001 from 1052cc to 1165cc to
become the ZRX1200R ‘ Eddie rep ’ and the half-faired and
more modern looking ZRX1200S. While the S was dropped
in 2004, the R carried on in Kawasaki ’ s model range until
2007 when emissions laws saw its production ceased.

guide shows anyone how to make their bike, or their kid's, handle like a pro's. The book gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

This book discusses all important aspects of emergency medicine in older people, identifying the particular care needs of this population, which all too often remain unmet. The up-to-date and in-depth coverage will assist emergency physicians in identifying patients at risk for adverse outcomes, in conducting appropriate assessment, and in providing timely and adequate care. Particular attention is paid to the common pitfalls in emergency management and means of avoiding them. Between 1980 and 2013, the number of older patients in emergency departments worldwide doubled. Compared with younger patients, older people suffer from more comorbidities, a higher mortality rate, require more complex assessment and diagnostic testing, and tend to stay longer in the emergency department. This book, written by internationally recognized experts in emergency medicine and geriatrics, not only presents the state of the art in the care of this population but

From the author of *The Great Fire*, a collection of stories about love and acceptance, expectations and disappointment Shirley Hazzard's stories are sharp, sensitive portrayals of moments of crisis. Whether they are set in the Italian countryside or suburban Connecticut, the stories deal with real people and real problems. In the title piece, a young widow is surprised and ashamed by her lack of grief for her husband. In "A Place in the Country," a young woman has a passionate, guilty affair with her cousin's husband. In "Harold," a gawky, lonely young man finds acceptance and respect through his poetry. Moving and evocative, these ten stories are written with subtlety, humor, and a keen understanding of the relationships between men and women.
