Henry VIII's Tudor court meets time-traveling teen assassins in this riveting thriller. Twins Charlie and Alex Douglas are the newest time travelers recruited to the Forty-Eight, a clandestine military group in charge of manipulating history. The brothers are tasked with preventing Henry VIII from marrying Jane Seymour and arrive in 1536 feeling confident, but the Tudor court is not all banquets and merriment: it is a deep well of treachery, torture, lust, intrigue, and suspicion. That makes it especially dangerous for young people who refuse to "know their place"--young women who might, say, want to marry for love instead of status, or young men who would feel free to love each other, if it weren't forbidden. Told in alternating perspectives among Charlie, Alex, and sixteen-year-old Lady Margaret, a ladies' maid to Queen Anne Boleyn, The 48 captures the sights, smells, sounds, and hazards of an unhinged Henry VIII's court from the viewpoint of one person who lived that history--and two teens who have been sent to turn it upside down. Includes an author's note touching on her inspiration for the book and the research she did to bring the Tudor Court to life.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

A fresh interpretation of the final major sections of the Hebrew book of Ezekiel, chapters 38-48 Stephen L. Cook offers an accessible translation and interpretation of the final sections of Ezekiel. These chapters, the most challenging texts of scripture, describe the end-time assault of Gog of Magog on Israel and provide an incredible visionary tour of God's utopian temple. Following the approach of Moshe Greenberg, the author of the preceding Anchor Yale Bible commentaries on Ezekiel, this volume grounds interpretation of the book in an intimate acquaintance with Ezekiel's source materials, its particular patterns of composition and rhetoric, and the general learned, priestly workings of the Ezekiel school. The commentary honors Greenberg's legacy by including insights from traditional Jewish commentators, such as Rashi, Kimhi, and Eliezer of Beaugency. In contrast to preceding commentaries, the book devotes special attention to the Zadokite idea of an indwelling, anthropomorphic "body" of God, and the enlivening effect on people and land of that indwelling.
