So You Want to Be a Hero? I've had a long haul to get where I am-started from less than nothing, a tortured past, really. But now, I'm in control of my life and I'm at the height of my success, CEO of my own gaming empire. Every piece is falling into place-especially now that I've found the woman of my dreams, the woman I love, Mia Strong. I'm at the top of my game. ...Until we hit a rough patch and Mia starts acting differently, strangely. She's hiding something and I can sense she needs my help but the more I try to get close, the harder she pulls away. I'm a problem-solver by nature and I want to take control, protect her, but she won't let me. This is one problem I can't solve by writing a check or a few clever lines of code. I'll have to dig deep and put myself at risk-or risk losing her forever.

My mom's hospital bills, for one. My medical school tuition, for another. By day, I'm a student and popular gaming blogger, but my dream is to become a doctor. This auction could free me from a crushing pile of debt and give me the cash I need to make my dreams a reality. And honestly, I'm also looking forward to cashing in that troublesome V-card. Win, win. My rules are set in stone: One night, then no further contact with the auction winner. Enter Adam Drake, the brilliant gaming company CEO and multimillionaire. He won my auction. He's young, driven, and so damn sexy. It's frightening how attracted I am - though I'd never admit it. And it's clear I'll need to protect my heart. But Adam is used to making the rules and before I can catch it, he's found a loophole. Every stipulation I made to protect myself is getting tossed by the wayside. I can't help but wonder... Is he playing me? Or is he playing for keeps?

"Smart, propulsive and gripping, THE GOD GAME is an ambitious thriller and a terrifying examination of what could--and probably already is--happening in the world of artificial intelligence."--Harlan Coben, #1 New York Times bestselling author of Run Away A technological thriller with an all-too-believable premise, award-winning author Danny Tobey's The God Game follows five teenagers obsessed with an online video game that connects them to their worst impulses and most dangerous desires. They call themselves the Vindicators. Targeted by bullies and pressured by parents, these geeks and gamers rule the computer lab at Turner High School. Wealthy bad boy Peter makes and breaks rules. Vanhi is a punk bassist at odds with her heritage. Kenny's creativity is stifled by a religious home life. Insecure and temperamental, Alex is an outcast among the outcasts. And Charlie, the leader they all depend on, is reeling from the death of his mother, consumed with reckless fury. They each receive an invitation to play The God Game. Created by dark-web coders and maintained by underground hackers, the video game is controlled by a mysterious artificial intelligence that believes it is God. Obey the almighty A.I. and be rewarded. Defiance is punished. Through their phone screens and high-tech glasses, Charlie and his friends see and interact with a fantasy world superimposed over reality. The quests they undertake on behalf of "God" seem harmless at first, but soon the tasks have them questioning and sacrificing their own morality. High school tormentors get their comeuppance. Parents and teachers are exposed as hypocrites. And the Vindicators' behavior becomes more selfish and self-destructive as they compete against one another for prizes each believes will rescue them from their adolescent existence. But everything they do is being recorded. Hooded and masked thugs are stalking and attacking them. "God" threatens to expose their secrets if they attempt to quit the game. And losing the game means losing their lives. You don't play the Game. The Game plays you....
