Houndout Adama University

a- Safe Drainage System All sanitary drainage systems should be connected to the public sewer system (wherever available) at the nearest possible point. In case the public sewer system is not available, a safe and nonpolluting drainage system must be ensured. The drainage system should be so designed as to guard against

From July 2017, each Drainage Engineer course will be delivered in the Igloo – a 360-degree projection theatre owned by Lanes Utilities at the CSC Centre based in Slough. The Igloo delivers wraparound sound and vision, which allows teams to instantly see and hear what it is like to be inside a sewer – even in hazardous situations – without having to leave the training room.
