The 12 Best Air Purifiers For Clean Air in Your Home

There are two basic types of electrostatic filtration. One is electrostatically charged filter media, and the other is an electrostatic precipitator. Electrostatic media is created by giving a normal filter an electrostatic charge. The electrostatic charge may increase the filter's ability to capture certain particles.

HEPA vs Electrostatic: A real comparison not a battle

Home Solutions Inc. is a licensed residential and commercial remodeling company with a commitment to quality & service. You can be assured that each phase of your remodeling project will be met with attentive care, skilled craftsmanship, and an eye for beauty.

HOME SOLUTIONS—HOME

Air Cleaners are a more advanced or complete solution than standard replacement furnace filters. Air Cleaners work efficiently to capture more airborne particles from the air passing through the filter and requires minimal maintenance while doing so. No replacement filters needed. Achieving cleaner air has never been easier.
