This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Updated in its 12th edition, *Countries and Concepts* systematically examines politics from around the world and presents eleven accessible and in-depth studies of Britain, France, Germany, Japan, Russia, China, India, Mexico, Brazil, Nigeria, and Iran. This text looks at similarities and differences in five key areas of each country to facilitate comparative analysis, defining important concepts and integrating examples from current events throughout. Highly readable and thought-provoking, *Countries and Concepts* introduces readers to the politics and governments of the world and bolsters their civic education by considering the historical, political, economic, geographical, and moral aspects of democracy.

Written from Mike Roskin's unique and engaging point-of-view, *IRarms* students with a direct and down-to-earth understanding of contemporary international relations. This text surveys key events in world history as well as fundamental theoretical concepts to trace the international system's evolution and to assess its future. Putting the behavior of global actors into more complete context, *IR* helps students think critically about the challenges faced by the United States in an era of globalization.

Political Culture (defined as the values, beliefs, and behavioral patterns underlying the political system) has long had an uneasy relationship with political science. Identity politics is the latest incarnation of this conflict. Everyone agrees that culture and identity are important, specifically political culture, is important in understanding other countries and global regions, but no one agrees how much or how precisely to measure it. In this important book, well known Comparativist, Howard J. Wiarda, traces the long and controversial history of culture studies, and the relations of political culture and identity politics to political science. Under attack from structuralists, institutionalists, Marxists, and dependency writers, Wiarda examines and assesses the reasons for these attacks and why political culture went into decline only to have a new and transcendent renaissance and revival in the writings of Inglehart, Fukuyama, Putnam, Huntington and many others. Today, political culture, now updated to include identity politics, stands as one of these great explanatory paradigms in political science, the others being structuralism and institutionalism. Rather than seeing them as diametrically exposed, Howard Wiarda shows how they may be made complementary and woven together in more complex, multicausal explanations. This book is brief, highly readable, provocative and certain to stimulate discussion. It will be of interest to general readers and as a text in courses in international relations, comparative politics, foreign policy, and Third World studies.

With its strong, engaging politics are pertinent theme and current, cutting-edge coverage, *UNDERSTANDING POLITICS: IDEAS, INSTITUTIONS, AND ISSUES*, Eighth Edition, is the proven best-selling text for the introduction to political science course. Thomas Magstadt fascinates students with his coverage of three fundamental premises: 1) politics is a pervasive force in modern society; 2) government is too important to be left in the hands of a few; and 3) in a democracy, everyone has both the opportunity and the obligation to participate in public life. The eighth edition of *UNDERSTANDING POLITICS: IDEAS, INSTITUTIONS, AND ISSUES* focuses on such pertinent concepts as democracy, dictatorship, citizenship, voting behavior, elections, leadership, ideologies, war, revolution, world politics, and public policy--fundamental concepts that provide students with a view of politics and economics that is at once lucid, nuanced, and empowering. Expand your political science knowledge with a book that explains concepts in a way anyone can understand! The global political climate is dynamic, at times even volatile. To understand this evolving landscape, it's important to learn more about how countries are governed. Political Science For Dummies explores the questions that political scientists examine, such as how our leaders make decisions, who shapes political policy, and why countries go to war. The book is the perfect course supplement for students taking college-level, introductory political science courses. Political Science For Dummies is a guide that makes political science concepts easier to grasp. Get a better understanding of political ideologies, institutions, policies, processes, and behavior Explore topics such as class, government, diplomacy, law, strategy, and war Learn the specialized vocabulary within the field of political science Help prepare for a range of careers, from policy analyst to legislative assistant Political science crosses into many other areas of study, such as sociology, economics, history, anthropology, international relations, law, statistics, and public policy. Those who want to understand the implications of changing political economies or how governing bodies work can look to Political Science For Dummies. It's the book that cuts through the jargon as it focuses on issues that interest readers.

Emphasizing the relevance of politics and government in everyday life, *We the People* provides tools to help students think critically about American government and politics. The Sixth Edition has been carefully updated to reflect most recent developments, including the ongoing conflict in Iraq and the 2006 midterm elections. Complemented by a rich package of multimedia tools for instructors and students, including a new video-clip DVD, *We the People* is now more pedagogically effective than ever.

Updated in its 11th edition, *Understanding the Political World* offers a comparative perspective on how politics works at the global, national, group, and individual level. Focusing on how fundamental concepts in political science relate to real political events, this bestselling text surveys political behavior, systems, and processes throughout the world and asks students to evaluate and apply this knowledge. Through an engaging writing style, numerous examples, and the instructive use of visuals, *Understanding the Political World* encourages readers to think like political scientists and to critically examine new and enduring political realities and challenges.

Interdisciplinary Perspectives on Social Sciences is a collection of essays on educational issues confronting educators and researchers from three continents (Africa, Asia, and Europe). The essays are grouped into three sections. The first, "Human Resources Management", discusses issues such as consumer innovativeness, employee expectations, enterprise competitiveness, the global economy, human resources, internet advertising, job performance, the labour market, privatisation policies, profitability, transformational leadership, and work behaviour. The second part, "International Relations", encompasses topics such as administrative reforms, elections, EU enlargement, mass media, migration, nationalism, and totalitarian thought, while the third, "Sociology", looks at divorce, everyday life practices, the family structure, feminism, gender issues, the legalisation of prostitution, and women's rights. The book will appeal to educators, researchers, and students involved in social sciences.
