Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. The Car Hacker's Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, The Car Hacker's Handbook will show you how to: –Build an accurate threat model for your vehicle –Reverse engineer the CAN bus to fake engine signals –Exploit vulnerabilities in diagnostic and data-logging systems –Hack the ECU and other firmware and embedded systems –Feed exploits through infotainment and vehicle-to-vehicle communication systems –Override factory settings with performance-tuning techniques –Build physical and virtual test benches to try out exploits safely If you're curious about automotive security and have the urge to hack a two-ton computer, make The Car Hacker's Handbook your first stop.

This book provides an intimate and affectionate view of one of Hollywood's most admired directors. The fifty-year career of John Ford (1895-1973) included six Academy Awards, four New York Film Critics' Awards, and some of our most memorable films, among them The Informer (1934), The Grapes of Wrath (1940), The Quiet Man (1952), The Long Gray Line (1955), and The Wings of Eagles (1957). In addition, the name John Ford was practically synonymous with the great Westerns that came out of Hollywood for many years-- Stagecoach (1939), She Wore a Yellow Ribbon (1949), Rio Grande (1950), The Searchers (1956), and The Man Who Shot Liberty Valance (1962), for example. After his death a European newspaper mourned ford as "the creator of the Western," although many of his finest films were far removed from that genre. Combining interviews with John Ford with his own reflections, director Peter Bogdanovich captures both the artist and the man in a highly readable, compact book that will please film lovers and Ford admirers alike. Over a hundred stills are included, along with the most completed filmography yet compiled for John Ford.
