The first section responds to the assumption that "there is no other way" by providing an alternative to violence which he calls "the third side". According to Ury, the third side is "...people from the community, using a certain kind of power--the power of peers, from a certain perspective--of common ground, supporting a certain process--of dialog and nonviolence, and aiming for a certain product-a "triple win." He defines this "triple win" as "...a resolution that satisfies the legitimate ...

The third side possesses the power of peer pressure and the force of public opinion. It is people power. It uses the power of persuasion. It influences the parties primarily through an appeal to their interests and to community norms. In every conflict, there usually exists not just one possible third party but a multitude.

The Third Side | What is the Third Side?

The Third Side is the community – us – in action protecting our most precious interests in safety and well-being. It suggests ten practical roles any of us can play on a daily basis to stop destructive fighting in our families, at work, in our schools, and in the world. Each of our individual actions is like a single spider web, fragile perhaps but, when united with others, capable of halting the lion of war.

According to William Ury, it takes two sides to fight, but a third to stop. Distilling the lessons of two decades of experience in family struggles, labor strikes, and wars, he presents a bold new strategy for stopping fights. He also describes ten practical roles--as managers, teachers, parents, and citizens--that each of us can play every day to prevent destructive conflict. Fighting isn't an inevitable part of human nature, Ury explains, drawing on his training as an anthropologist and his work among primitive tribes and modern corporations. We have a powerful alternative--The Third Side--which can transform our daily battles into creative conflict and cooperation at home, at work, and in the world.

Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement

The third side of a coin is essentially the one that connects the other two sides: the head and the tail. This analogy is used throughout the book to emphasize the importance of “mastery learning” in any profession, such as medicine, law, or engineering. Mastery learning is the essential outcome of uniting the two flat faces of a coin with the help of the third circular side. In any profession, the two flat faces of the coin are theory and practice, and the third side is the testing. The author gives examples from his more than fifty years of experience in engineering practice and engineering teaching to prove that mastery learning is essential. In the very rapidly changing pace of technology today, any curriculum that ignores mastery learning is bound to produce obsolete engineers.

The forest animals have a problem-the watering hole isn't big enough. Emo, a bear cub, and his friend, a bird named "Chickie," know there must be a way to stop the fighting. Together with the forest animals, Emo and Chickie explore ways to work things out in a positive, constructive way. Skills that everyone can learn.

Offers advice on how to negotiate with difficult people, showing readers how to stay cool under pressure, disarm an adversary, and stand up for themselves without provoking opposition

The international community invests billions annually in thousands of projects designed to overcome poverty, stop violence, spread human rights, fight terrorism and combat global warming. The hope is that these separate projects will 'add up' to lasting societal change in places like Afghanistan. In reality, these initiatives are not adding up to sustainable peace. Making Peace Last offers ways of improving the productivity of peacebuilding. This book defines the theory, analysis and practice needed to create peacebuilding approaches that are as dynamic and adaptive as the societies they are trying to affect. The book is based on a combination of field experience and research into peacebuilding and conflict resolution. This book can also be used as a textbook in courses on peace-building, security and development. Making Peace Last is a comprehensive approach to finding sustainable solutions to the world's most pressing social problems.

In this landmark book, William Ury-- best-selling author and director of the Project on Preventing War at the Program on Negotiation at Harvard Law School-- and a stellar panel of experts from several scientific disciplines debunk the commonly held notion that violence is a predictable part of the human condition and outline an innovative paradigm for preventing violent confrontations. Must We Fight? presents compelling new research and insights into human nature which clearly demonstrate that humankind is not doomed to continue the seemingly endless cycle of violent conflict. With intelligence and sensitivity, Ury describes a brilliant program for personal and community empowerment called The Third Side. As he explains, in most conflicts between two parties there is actually a third entity--the community in which the combatants, and their dispute, are embedded. The Third Side is a proven model for ending conflict that shows how to mobilize communities to stop and, in some cases, prevent individual and group violence.

A noted conflict-resolution expert explores dignity, its role in human conflict, and its power to improve relationships Drawing on her extensive experience in international conflict resolution and on insights from evolutionary biology, psychology, and neuroscience, Donna Hicks explains what the elements of dignity are, how to recognize dignity violations, how to respond when we are not treated with dignity, how dignity can restore a broken relationship, why leaders must understand the concept of dignity, and more. By choosing dignity as a way of life, Hicks shows, we open the way to greater peace within ourselves and to a safer and more humane world for all. For the Tenth Anniversary Edition of Dignity, Hicks has written a new preface that reflects on her experience helping communities and individuals understand the power of dignity and how it can lead to a more peaceful world. “Anyone who understands the importance of personal feelings and their fuel for conflict should consider Dignity as a powerful advisory and motivational guide.”--Midwest Book Review Winner of the 2012 Educator’s Award, given by the Delta Kappa Gamma Society International.

No is perhaps the most important and certainly the most powerful word in the language. Every day we find ourselves in situations where we need to say No—to people at work, at home, and in our communities—because No is the word we must use to protect ourselves and to stand up for everything and everyone that matters to us. But as we all know, the wrong No can also destroy what we most value by alienating and angering people. That’s why saying No the right way is crucial. The secret to saying No without destroying relationships lies in the art of the Positive No, a proven technique that anyone can learn. This indispensable book gives you a simple three-step method for saying a Positive No. It will show you how to assert and defend your key interests; how to make your No firm and strong; how to resist the other side’s aggression and manipulation; and how to do all this while still getting to Yes. In the end, the Positive No will help you get not just to any Yes but to the right Yes, the one that truly serves your interests. Based on William Ury’s celebrated Harvard University course for managers and professionals, The Power of a Positive No offers concrete advice and practical examples for saying No in virtually any situation. Whether you need to say No to your customer or your coworker, your employee or your CEO, your child or your spouse, you will find in this book the secret to saying No clearly, respectfully, and effectively. In today’s world of high stress and limitless choices, the pressure to give in and say Yes grows greater every day, producing overload and overwork, expanding e-mail and eroding ethics. Never has No been more needed. A Positive No has the power to profoundly transform our lives by enabling us to say Yes to what counts—our own needs, values, and priorities. Understood this way, No is the new Yes. And the Positive No may be the most valuable life skill you’ll ever learn!
